

GANESH CHEMICAL INDUSTRIES

DEFOAMER

ZAYOX - 2323

ZAYOX - 2323 EMULSIFIERS USED FOR ALL SC FORMULATION.

20% Active Silicone Defoamer Emulsion is a mix of activated silicone oil with combination of selected surfactants. It not only burst the foam but also helps in controlling re-generation of foam. Formulated under hygienic conditions, our degreasing chemicals are safe to use and are available at industry leading prices.

Technical Specification

S. No.	PARAMETER	SPECIFICATION
1.	Appearance	Viscous Flowing Emulsion
2.	Colour	Milky white
3.	pH of 2% Solution	7.0 ± 1
4.	Type of Emulsion	Nonionic
5.	Specific Gravity	0.94 ± 0.02
6.	Flash Point	Not Applicable
7.	Diluent	Cool Water
8.	Dose Level	0.3 to 1%
